Jeff

The WSP drone calculated the large debris pile to have a volume of 561442.45 cubic feet plus or minus 3022.57 cubic feet.

Scott

Scott,

My notes say you estimated the volume of the "compost" pile to be 500,000 cubic feet (18,500 cubic yards). Is that your recollection?

I'm just making sure our assumptions are documented for my cost estimate to you.
